

## CENTRES

To ensure the proper delivery of junior Netball (ANZ futureFERNS) is consistent across New Zealand, NNZ requires all providers to be endorsed.

Endorsed Providers (Netball Centres) can apply to be become an endorsed provider and they can also apply to have a number of satellites (Centre endorsed venue / provider).

Endorsed providers are required by NNZ to deliver the programme in its entirety. This includes ensuring that all those involved in the programme are appropriately trained; game day resources are accurately followed and the appropriate modified equipment is used.

There is no cost for Centres to be endorsed to deliver the ANZ futureFERNS programme. The Zone will endorse your Centre each year.

Contact your zone for all the resources and support needed to set up and run ANZ futureFERNS.

### **Become a Satellite (Centre endorsed venue / provider)**

To ensure Netball is accessible to everyone, satellites remove barriers such as travel allowing clubs, schools and communities to apply to deliver ANZ futureFERNS with the help of your local Netball Centre.

All players will need to register with your local Netball Centre.

The coaching workshops for all age groups will be coordinated by your local Netball Centre or Zone.

All ANZ futureFERNS satellites are required to meet the same expectations as a Netball Centre.

Contact your local Netball Centre if you are interested in becoming a satellite.
