

# SCHOOLS

Setting up a Mother Earth futureFERNs Team is easy!

1. Find some kids (4 or more) in the same age group (ie. Y1&2, Y3&4)
2. Find an adult or secondary school's student who would like to help or coach
3. Contact your local Netball Centre to register your Team
4. Get your coach to attend a coaching workshop (ask your Netball Centre for more information)
5. Play and have fun!!

\*If you're an individual player or you do not have enough players to form a Team, don't worry! You can sign up as an individual and your local Netball Centre can help you find a Team.

Schools can also be a **satellite** provider of Mother Earth futureFERNs. This is when the School delivers the programme with assistance from their local Netball Centre.

To ensure Netball is accessible to everyone, satellites remove barriers such as travel allowing clubs, schools and communities to apply to deliver Mother Earth futureFERNs with the help of your local Netball Centre. All players will need to register with your local Netball Centre.

Download our Mother Earth futureFERNs school flyer for more information about our junior Netball programme.
